Mer - Jabr 26 Hankertha stel. 6th 1849. 9. H. Conwell to Dr. Engleman. In order to get a better knowledge of Botany, and Natural Mistory in general I have fully made up my mind to make a Natural History Execution across the Rocky with some of my height bers, whose told øbjeet is to dig and hoard up gold. think of doing the same with this exception, Est thall Embrace every opportunity to increase my cabinet of Natural Hestory Specimes, Inch of plants, mineral, birds, indeets 8.6, I am agoing to take 500 newspapers and two pressed for plants. I was recommended by Mr. La Johan to you for the information! that I should need, but at I am to that Through It. Louis (unless the company (4mino.) think it hest to go dome other way, which they will not probable,) I thall have achance Ho talk these matters over fince to face" My former instruction, Dr. Barrott game me Some useful information, while at college about preserving specimines while transling, but at you may be better quallified on this subject, I refun to you for further MISSOURI

instruction. But we shall need some information the hest? We think of going as far as It. Lavis mitt horses and then tolking oxen. What kind of providion, and how much of It for a man had me botter take, to last Several month after me get to California. We think if Starting from here about the first of April, to be in The Lows, the 15th. I think of gathering the Seed of all rare plants. When I Lee you I stall the pleased to see spesimines Hosalities I have work on New Meseiso & California. I have brander bed the Entere botanical catalogue contained within. I shall take pleasure in collecting the callaceae for you, if it is possible to presence them. You will give me instructions in relation to the I can take good drawings of them, describing Their habits X. E. I regret that I have not more botanicat worked that will que me useful information whon the botans of that distant country. I have one no. of the bombos Here, that no. that combraces the Aster &. 6.4 Jan. He. I have just received a letter from Mon of Lynde our representative to congress, who hays that MISSOURI
